

We've got a plan to bring back *Phil of the Future*

The Save Disney Shows movement was able to bring back the popular Disney Channel show *Kim Possible* due to fan pressure, so there's no reason we can't save *Phil* as well. There is power in numbers, and our numbers are growing... Simply put, "Phil" is the only live action show that has the potential needed to carry the Disney Channel forward. This is why we ask you to renew "Phil" for a third season that will bring it to at least 65 episodes with the potential for a season four after that. That way we can insure that the storyline plays out as the writers believe it should. We know that you want to move

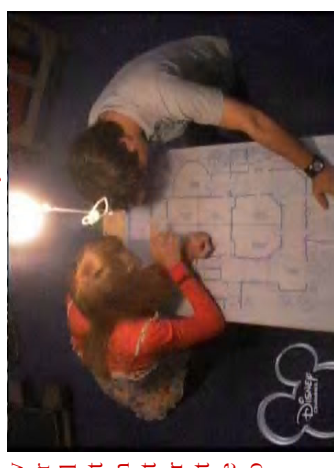

Alyson Michalka to the new show "Haversham Hall" so she and her sister AJ can better promote their musical career with Hollywood Records. But you could easily have Aly on both shows, or replace Aly's character or put AJ on the cast of "Phil." There are other ways to continue the show with out interfering with your plans for the future. The benefits of this are clear to both the fans and the company.
